

KHALIQUE REHMAN

Econometrician & Impact Evaluation Specialist | SEM & Quantitative Researcher | Research Methodologist for Principal Investigators (PIs), Faculty & Global Development Consultancies

Freelance Research Consultant | Statistical Consultant | Research Analyst | Available for Remote, Contract & Full-Time Roles — Middle East, Europe, MENA, South Asia & Worldwide

Islamabad, Pakistan (Available Worldwide — Remote) | +92 344 3704004 | khalique.kubar@gmail.com | linkedin.com/in/khaliquerahman

PROFESSIONAL SUMMARY

Econometrician, SEM Consultant, and Impact Evaluation Specialist with a proven track record designing and executing quantitative research for USAID-, WHO-, UNDP-, World Bank-, and DFID-funded programs, universities, NGOs, think tanks, and peer-reviewed academic publications. Expert in econometrics and causal inference (RCT, RDD, DID, IV, Panel Data), Structural Equation Modeling (SEM/CFA via AMOS & SmartPLS), and end-to-end survey data quality assurance. MPhil in Development Studies from the Pakistan Institute of Development Economics (PIDE) and MSc in Sociology from Quaid-I-Azam University, backed by World Bank Institute and Ivy-caliber university certifications. Trusted as a freelance research consultant, statistical consultant, and quantitative researcher by Principal Investigators (PIs), university faculty, NGOs, and multinational development organizations across the USA, UK, Europe, the Middle East, MENA, and South Asia to convert complex, multi-country datasets into publication-ready, donor-grade evidence — available for remote, contract, and full-time research consulting roles.

CORE COMPETENCIES

Econometrics & Causal Inference (RCT/RDD/DID/IV)	Structural Equation Modeling (SEM/CFA)	Impact & Program Evaluation
Survey Design, Validation & Piloting	Data Quality Assurance (DQA)	Panel & Multilevel Data Analysis
Academic Manuscript Development (SSCI/Scopus)	M&E Framework Design	Research Visualization & Reporting
Freelance & Remote Research Consulting	NGO / UN / Think-Tank Research Support	Statistical & Data Analysis Consulting

PROFESSIONAL EXPERIENCE

Research Data Specialist & Methodological Consultant

Dec 2024 – June 2025

John Snow, Inc. (JSI) Boston, USA (Remote)

- Designed and implemented quantitative research frameworks for large-scale public health and international development programs spanning multi-country population datasets across three continents.
- Built econometric models to evaluate behavioral determinants and program outcome indicators, generating policy-grade evidence for donor reporting aligned with USAID, WHO, and DFID standards.
- Led survey data quality assurance (DQA) audits, including MCAR/MAR missing-data diagnostics, duplicate detection, and reliability/validity testing, safeguarding the integrity of donor-facing datasets.
- Synthesized quantitative findings into evidence reports and technical briefs used directly in USAID, WHO, and DFID decision-making programs.
- Partnered with cross-functional teams of epidemiologists, field coordinators, and program officers to align analytical outputs with field realities and donor timelines.

Senior Research Analyst & Quantitative Methodologist

Mar 2023 – Sept 2024

Silverlight Research — London, UK (Remote)

- Led end-to-end Structural Equation Modeling (SEM) analyses for academic and commercial clients using AMOS and SmartPLS, consistently achieving publication-ready model fit indices (CFI, RMSEA, SRMR).
- Produced complete statistical output packages — CFA measurement models, path coefficients, variance-explained tables, and discriminant validity assessments — ready for peer review.
- Supported peer-reviewed journal manuscript preparation, authoring methods sections, results write-ups, and APA-formatted statistical reporting for SSCI/Scopus-track submissions.
- Delivered client-facing research dashboards and publication-grade visualizations using ggplot2, Tableau, and SPSS Charts.
- Provided methodological review of research instruments, strengthening construct validity and theoretical alignment prior to data collection.

Research Consultant & Cross-National Data Analyst

Feb 2022 – Jan 2023

Livediff — Prague, Czech Republic (Remote)

- Designed comparative research frameworks for European social and policy research projects built on multi-country survey datasets.
- Executed comprehensive data cleaning, transformation, and preparation protocols, ensuring data integrity for advanced statistical modeling.
- Applied regression analysis and descriptive statistics to social inequality, labor market, and development research questions.
- Delivered analytical insight reports with professional-grade visualizations for research teams and organizational stakeholders.

Academic Research Specialist & Statistical Consultant

Apr 2018 – Sept 2019

Writer's Home — Islamabad, Pakistan

- Provided end-to-end research methodology support to PhD scholars, faculty researchers, and MPhil students across the social sciences and development disciplines.
- Guided clients through SEM, CFA, mediation/moderation analysis, and regression modeling using SPSS, AMOS, and SmartPLS.
- Prepared, revised, and formatted manuscripts for SSCI, Scopus, and HEC-recognized journal submission.
- Designed and delivered training workshops on applied research methods, statistical software, and academic writing.

EDUCATION

MPhil in Development Studies

Pakistan Institute of Development Economics (PIDE), Islamabad — Pakistan's premier economic research university & think tank (UN-affiliated). Specialization: Development Research Methods, Poverty Analysis, Social Policy.

MSc in Sociology

Quaid-i-Azam University, Islamabad — QS-ranked top public research university. Specialization: Research Methodology, Social Stratification, Quantitative & Qualitative Methods.

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Impact Evaluation Methods — World Bank Institute
- Econometrics for Development — World Bank / edX
- Monitoring & Evaluation in Development — World Bank Institute
- Data Analysis & Statistical Inference — Duke University (Coursera)
- Applied Data Science with Python — University of Michigan (Coursera)
- Research Methods & Statistics — University of Amsterdam (Coursera)
- Data Visualization with R — Johns Hopkins University (Coursera)
- Survey Design & Analytics — UC Davis (Coursera)
- Structural Equation Modeling (AMOS & SmartPLS); Advanced SPSS for Research
- Academic Writing for Publication; GIS for Development Research

TECHNICAL SKILLS

Statistical Software: SPSS (Advanced) Stata (Proficient) R (Proficient) Python (Intermediate)

SEM & Path Analysis: AMOS · SmartPLS · Mplus · LISREL

Qualitative Tools: NVivo · ATLAS.ti · MAXQDA

Data & Visualization: Excel (Advanced) Tableau · Power BI · ggplot2 · QGIS

Documentation & Reporting: LaTeX · MS Word (Advanced) Mendeley · Zotero · APA / AMA / Vancouver

Research Methods: RCT · RDD · Difference-in-Differences · PSM · Instrumental Variables · Multilevel Modeling

CONSULTING SERVICES OFFERED

- Research design & proposal writing | Econometric modeling & results interpretation
- SEM / CFA model building & reporting | Survey design, pre-testing & validation
- Data cleaning, coding & quality assurance | Quantitative & qualitative data analysis
- Manuscript writing & journal submission support | Statistical coaching & training workshops
- M&E framework development | Academic presentation design
